👤 PROFILE

I am a Full-stack developer and UI/UX designer with a background in Computer Science and hands-on experience in building real-world applications. Skilled in React, Node.js, and Figma, with a strong focus on clean code and user-centered design. Passionate about creating impactful digital products and constantly learning new technologies.

💼 WORK EXPERIENCE

Prodigy Tech — 02/2025 – present — India
Full-Stack Developer
As a *Full-Stack Developer* at Prodigy, I develop and maintain web applications, handling both frontend and backend, API integration, authentication, and deployment.

Self-Employed — 09/2023 – present
Website Developer
Designed, developed, and maintained responsive websites using HTML, CSS, JavaScript, and CMS platforms like WordPress.

MK Advert — 01/2021 – 03/2025 — Addis Ababa, Ethiopia
CEO, Graphics Designer and UI/UX Designer
As CEO & Lead Designer at MK Advert, I create compelling graphics and intuitive UI/UX designs, leading branding and digital strategies for impactful solutions.

Addis Ababa City Administration — 01/2023 – 01/2025 — Addis Ababa
Information organization and analysis Specialist
Organizing data, optimizing systems, and providing insights.

📁 PROJECTS

Social Media web app — 04/2025
Built a social media-style web application using React, TypeScript, Supabase, and Vercel. Implemented features like user authentication, real-time threaded comments, optimistic UI updates, and responsive design.

Book Store — present
 A software solution for managing Book Store. it has CRUD for books. and for future it will have a user Authentication, Advanced Book Management,Rating and Review System, and Book Search and Filter.

Spotify Clone — 03/2025
A web application that mimics Spotify, built in Tailwind CSS and ReactJS.

Secure User Authentication — 03/2025
Two full-stack user authentication systems built with Firebase and MongoDB

Landing Page — 03/2025
A responsive, dynamic, and interactive landing page built with ReactJS and Tailwind CSS.
